Norm Slide

- construction depth: 40 mm
- maximum sash weight: 120 kg
- system designed for interiors
- wall or ceiling mounting
- Silent-stop option for soft closing
- we lacquer in the full RAL K7 colour palette and, on request, in other colours (use powder code)

Norm Slide is a steel sliding door system with one or two sashes.

The doors are designed for use in interiors. They are characterised by the convenience of use, the durability of steel elements and universal design, which allows their adaptation to any arrangement.

The functionality of Norm Slide steel sliding doors is enhanced by optional extras such as the Silent-Stop door closer that gently stops the sashes.

Norm Slide's aesthetics are ensured by anodised or door-coloured lacquered wall masking with caps for the hardware.
